Hey Scott,

Please think about the impact you're having on the environment by ignoring oil spills and pleasing those who finance your campaign. All of us will face consequences of not taking care of our environment and you in your position in the government are responsible and can hold oil companies accountable. Thank you for taking notice!

10:06 PM

(My weekly message to my kids. I thought I would share) Good morning teammates. It's the last Sunday of October! We soon make the turn for November. With fall in the air and holidays filled with faith, family, fun , food and love. Today's gospel is about a blind beggar bartimaeus. He cried out to Jesus and when asked what he wanted he said "I want to see". Jesus replied "be on your way. Your faith has healed you". I see two lessons here. One is that Jesus teaches us our faith in him is so important. Imagine if he can heal a blind beggar what he can do with our little problems! It takes courage to communicate our issues to Jesus and faith to believe he hears us.

10:54 AM

Additionally I think we could all have the same prayer as Bartimaeus. We could all use better sight. Sight that leads to awareness And awareness that leads to action. Perhaps better sight to see the poor, the discriminated, the mentally ill, those in need of human action and love. Let us all pray for better sight so we be more prepared to serve the Lord. Have a great day and I look forward to celebrating thanksgiving with each of you. With all my love and respect, Pepere'

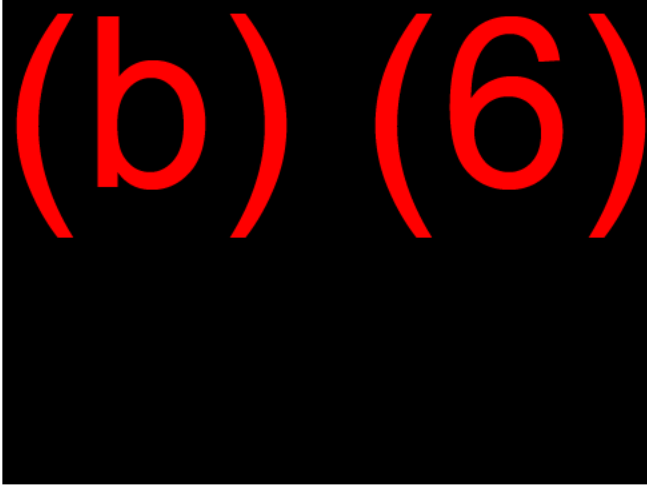

Brandon Dunigan

Thank you for sharing the message and God's word. This morning our (b) (6) message was about legacy and how our faith in Christ will lead us to great things that our children's children can carry on and remember us by. I'm surrounded by my legacy at the moment. My (b) (6)

Scott Angelle

(My message to my kids this week. Thought I would share) Good evening teammates. November is here. Chill is in the air. Gumbo on the stove. Holidays around the corner. I attended (b) (6) It is beautiful. The priest taught us today that the 2 greatest commandments are to love God with all our being and to love our neighbors as ourselves. He went on to say when we love our neighbors we demonstrate our love of God more than any offering or sacrifice. Let us be ever mindful of our calling to always chose Love. Love is undefeated. When in doubt chose and act on love!!! Looking forward to seeing y'all soon. With all my love, respect and admiration. Pepere'

6:24 PM

Nat brought my phone and read this to me- I am proud she got to see who her husband is working for. Thank you for passing His word on Mr. Scott.

7:00 PM

(b) (6) and I'm sleeping great. Looking forward to this week!

Scott Angelle

Awesome. I'm going to try to visit you for thanksgiving holidays

7:01 PM

Brandon Dunigan

That'd be good

7:02 PM

Sunday, November 11, 2018

Scott Angelle

(My weekly message to my kids. I thought I would share with you) Good morning teammates. I attended (b) (6) this morning. The reading from the gospel sets us up beautifully for the coming holiday season. Jesus reminds us it's not how much we give but how much love we put behind our giving. He honors the widow who put in a couple of coins while others put in much more. Because it was from her needs not her surplus. The priest talked today about living a culture of giving. A culture of putting love behind our giving. We all have a human instinct to accumulate things. Many of which we do not need. We are all guilty of that from time to time. As we approach this holiday season let us be a family that lives by example "a culture of giving." Let's go beyond giving toys and food and clothes. Let's give love !!! Have a great day. I will be traveling today and tomorrow and back in dc for the remainder of the week. I arrive late Friday night in Lafayette for 9 days of faith, family, food, football and fun! With all my love, admiration and respect Pepere'

Any feedback from the inspectors call ?

10:57 AM

Brandon Dunigan

Yes sir, Appreciate you doing that by the way Mr. Scott.

10:58 AM

Brandon Dunigan

The statistics that were presented seemed encouraging to a younger/newer inspector like myself first of all.

10:59 AM

Brandon Dunigan

That our work has been paying off from top to bottom as an organization

11:00 AM

Brandon Dunigan

It gave me a sense that our job is being recognized as it should- necessary, valuable, beneficial, and that it serves a good purpose.

11:03 AM

Brandon Dunigan

I have felt like this job for me has been a chance to make my family proud of me and I am proud to do my job. I say that because when we start making pledges and raising standards of how we greet and represent
Ourselves, it might serve as a conscious and/or subconscious prompt to focus on our mission, seriousness of our tasks, and reminder that we should be proud of ourselves and continue to take pride in our good purpose.

11:08 AM

Brandon Dunigan

Not trying to stress pride really, but a sense that we can make a difference

11:10 AM

Brandon Dunigan

Also, reminding as inspectors and reminding industry from the get go, of serving American citizens, and exhibiting some humility and the winning attitude during the introduction as well.

11:15 AM

Monday, November 26, 2018

Brandon Dunigan

Mr. Scott, sorry to disturb you, but I wanted to take a moment to say hello and that I hope your Thanksgiving was a great one. Just made a turkey gumbo, and while I was cooking it, I thought to reach out to you.

7:37 PM

Tuesday, December 4, 2018

Brandon Dunigan

Apologies if I was disrespectful in any way, I reread my response to your last question and can see how I might have overstepped what you may have been asking. I know you're busy sir and won't bother you any further about it.

Just a thought, how many rigs or platforms you think you could call in a week

9:14 PM

Scott Angelle

20

9:14 PM

Bryan Domangue

That many?

9:15 PM

Bryan Domangue

Cause I was thinking, we could put together info for you, and you could know a little bit about them before you call

9:16 PM

Scott Angelle

Yep that would be helpful. I would call 4 a day.

9:17 PM

Bryan Domangue

20 briefing documents a week would be tough

9:18 PM

Sunday, June 3, 2018

Scott Angelle

I could get my folks in dc to do that. I have an idea to propose

I worked at the office earlier. Im chilling. (b) (6) so 7:24 PM

all I do here is work.

Scott Angelle

Did you see that email I sent with the new manual chapter on inspections and the red white and blue chart? 7:25 PM

Bryan Domangue

Yes, talked to Troy as well.

7:25 PM

Scott Angelle

He did s great job. We need to get sol to review and get this on the scoreboard

7:26 PM

Scott Angelle

Greg schnider is a stud

7:28 PM

12:39 PM

Scott Angelle

Yep

12:39 PM

Bryan Domangue

So since my deadline was March 1st and it's done today, as per my calculations, we were 99.3% quicker than anticipated. Email on its way!

12:42 PM

Scott Angelle

You said March 1. I responded damm. Glad to see you made it just in time for damm

12:44 PM

Bryan Domangue

That's my story and I'm sticking to it!

12:44 PM

Sunday, October 28, 2018

Scott Angelle

(My weekly message to my kids. I thought I would share) Good morning teammates. It's the last Sunday of October! We soon make the turn for November. With fall in the air and holidays filled with faith, family, fun , food and love. Today's gospel is about a blind beggar bartimaeus. He cried out to Jesus and when asked what he wanted he said "I want to see". Jesus replied "be on your way. Your faith has healed you". I see two lessons here. One is that Jesus teaches us our faith in him is so important. Imagine if he can heal a blind beggar what he can do with our little problems! It takes courage to communicate our issues to Jesus and faith to believe he hears us.

10:53 AM

Additionally I think we could all have the same prayer as Bartimaeus. We could all use better sight. Sight that leads to awareness And awareness that leads to action. Perhaps better sight to see the poor, the discriminated, the mentally ill, those in need of human action and love. Let us all pray for better sight so we be more prePared to serve the Lord. Have a great day and I look forward to celebrating thanksgiving with each of you. With all my love and respect, Pepere'

Scott Angelle

I know mabry is researching through concur but I have a question. How many nights a year you estimate an average inspector overnights?

1:49 PM

Bryan Domangue

For Houma, for the guys who volunteer, each guy will spend at least 30 nights offshore, could be as much as 40, just depends on the inspector. Jus a guess

7:13 PM

Scott Angelle

How many inspectorS??

7:14 PM

Bryan Domangue

We have 26 or so deep water facilities, we send 3 inspectors for 3 days and 2 nights

7:17 PM

Scott Angelle

Do the math. How many man nights total in a year for Houma dist

7:18 PM

Bryan Domangue

156 man nights for Houma deep water

7:20 PM

Scott Angelle

Would you estimate a similar number for Houma

7:21 PM

Bryan Domangue

For NOD?

7:22 PM

Bryan Domangue

New Orleans would be about the same

(My message to my kids this week. Thought I would share) Good evening teammates. November is here. Chill is in the air. Gumbo on the stove. Holidays around the corner. I attended (b) (6) [REDACTED] It is beautiful. The priest taught us today that the 2 greatest commandments are to love God with all our being and to love our neighbors as ourselves. He went on to say when we love our neighbors we demonstrate our love of God more than any offering or sacrifice. Let us be ever mindful of our calling to always chose Love. Love is undefeated. When in doubt chose and act on love!!! Looking forward to seeing y'all soon. With all my love, respect and admiration. Pepere'

(My weekly message to my kids. I thought I would share with you)
 Good morning teammates. I attended (b) (6) this morning. The reading from the gospel sets us up beautifully for the coming holiday season. Jesus reminds us it's not how much we give but how much love we put behind our giving. He honors the widow who put in a couple of coins while others put in much more. Because it was from her needs not her surplus. The priest talked today about living a culture of giving. A culture of putting love behind our giving. We all have a human instinct to accumulate things. Many of which we do not need. We are all guilty of that from time to time. As we approach this holiday season let us be a family that lives by example "a culture of giving." Let's go beyond giving toys and food and clothes. Let's give love !!! Have a great day. I will be traveling today and tomorrow and back in dc for the remainder of the week. I arrive late Friday night in Lafayette for 9 days of faith, family, food, football and fun! With all my love, admiration and respect Pepere'

Scott - Yes I did get it. Sorry for late reply. I was on the way to the UK.

I am truly disappointed to hear this. You are one of the most important parts of our Forum. Many people attend our Forum primarily to hear your message. I sincerely hope you do not have to change. If you do - I hope you can suggest an alternate. Lars would be good.

1:11 PM

If you cannot attend the Forum - I hope you can attend our fall COS external stakeholder group meeting in DC. Additionally - since I was hoping to meet with you soon based on our last call - I would like to come to DC and meet with you ahead of our ESG as well.

I appreciate it. Glad to discuss.

Many thanks! Charlie

What did you think about today's message and presentation

Charlie Williams

Scott- was truly excellent and meaningful. I have heard you do many good ones. This might have been the best so far. I heard all positive comments from the industry. I think it was very clear what you are achieving and need to achieve, the important balance you must maintain, and what the industry needs to do. I think it was especially good you had the hard facts on BSEE improvements you have made and on the fact that you are making regulations more effective not reducing requirements. I think your check against the Macando recommendations impressed everyone and they were not aware of it previously. Thanks from me and I know a thanks from the industry for some really important clarity and info. Charlie

(My weekly message to my kids. I thought I would share) Good morning teammates. It's the last Sunday of October! We soon make the turn for November. With fall in the air and holidays filled with faith, family, fun , food and love. Today's gospel is about a blind beggar bartimaeus. He cried out to Jesus and when asked what he wanted he said "I want to see". Jesus replied "be on your way. Your faith has healed you". I see two lessons here. One is that Jesus teaches us our faith in him is so important. Imagine if he can heal a blind beggar what he can do with our little problems! It takes courage to communicate our issues to Jesus and faith to believe he hears us.

10:54 AM

Additionally I think we could all have the same prayer as Bartimaeus. We could all use better sight. Sight that leads to awareness And awareness that leads to action. Perhaps better sight to see the poor, the discriminated, the mentally ill, those in need of human action and love. Let us all pray for better sight so we be more prePared to serve the Lord. Have a great day and I look forward to celebrating thanksgiving with each of you. With all my love and respect, Pepere'

PleSe advise if operators report monthly or quarterly work hours to COS ?

8:45 PM

Charlie Williams

Operators that are COS members report total work hours offshore once per year to COS. These hours include contractors and are divided between construction, production, and well work. It is voluntary but all have reported. COS does not report work hours by individual operator.

Perhaps better sight to see the poor, the discriminated, the mentally ill, those in need of human action and love. Let us all pray for better sight so we be more prepared to serve the Lord. Have a great day and I look forward to celebrating thanksgiving with each of you. With all my love and respect, Pepere'

(My message to my kids this week. Thought I would share) Good evening teammates. November is here. Chill is in the air. Gumbo on the stove. Holidays around the corner. I attended (b) (6) [REDACTED] It is beautiful. The priest taught us today that the 2 greatest commandments are to love God with all our being and to love our neighbors as ourselves. He went on to say when we love our neighbors we demonstrate our love of God more than any offering or sacrifice. Let us be ever mindful of our calling to always chose Love. Love is undefeated. When in doubt chose and act on love!!! Looking forward to seeing y'all soon. With all my love, respect and admiration. Pepere'

How's your attendance for December meeting looking?

9:36 PM

Evan Zimmerman

We had 167 as of Monday, currently 172 as of today

9:36 PM

Scott Angelle

How does that compare ?

9:40 PM

Evan Zimmerman

It's about normal for a December general meeting. We usually get all our members for both meetings every year, with additional industry folks and multiple member reps totaling 180 to 225 by game day. Your first appearance at our June general meeting helped us set our record at about 235

9:43 PM

Scott Angelle

Perhaps we can break that record again in June 2019 if you will have me

(My weekly message to my kids. I thought I would share with you)
Good morning teammates. I attended (b) (6) this morning. The reading from the gospel sets us up beautifully for the coming holiday season. Jesus reminds us it's not how much we give but how much love we put behind our giving. He honors the widow who put in a couple of coins while others put in much more. Because it was from her needs not her surplus. The priest talked today about living a culture of giving. A culture of putting love behind our giving. We all have a human instinct to accumulate things. Many of which we do not need. We are all guilty of that from time to time. As we approach this holiday season let us be a family that lives by example "a culture of giving." Let's go beyond giving toys and food and clothes. Let's give love !!! Have a great day. I will be traveling today and tomorrow and back in dc for the remainder of the week. I arrive late Friday night in Lafayette for 9 days of faith, family, food, football and fun! With all my love, admiration and respect Pepere'

Mr. Angelle,
You should be ashamed of yourself and quit your job. You're not
working for the people and the planet's safety.
Don't you have family?
In very few years we're all going to die from the pollution, no
drinking water, no food.
And you'll be in hell.

Scott Angelle

Good afternoon. FYI i was at mib today as normal on Saturdays and DS wanted to see me . He mentioned that devito was leaving and he asked me to take over managing the royalty policy committee. The conversation led to the shallow water research. He asked questions and was very supportive of the efforts. He asked me to pass along to you that he his eager to receive the report to start the discussion

It will be coming through DTS this weekend

6:09 PM

Scott Angelle

Good deal. Sounds like you burning up dts this weekend. So much to review! Im beginning to see the light at the end of the tunnel. I had a very productive day at mib. I got there at 450 am. I actually woke up the security guards! Haha

6:11 PM

Joe Balash

Ha!

6:11 PM

Where do we stand on WCR? I understood you would have something at MIB last week. Can we meet today? 9:50 AM

Scott Angelle
I will receive a second edition of the draft final rule at cob today that will have the proposed reg text and preamble reflective of the 7 policy decisions and other comments. This draft will not have yet been reviewed by sol. I am in sterling Virginia office today meeting on a variety of issues. Is a meeting at around 6 pm today an option? Tomorrow morning? If I need to cancel my sterling schedule to accommodate your schedule please let me know 10:13 AM

Joe Balash

I don't need a meeting until we have text. Tomorrow morning should work. I will have Tracie set up.

11:17 AM

Do you have any sense of how long Sol will need?

Scott Angelle

They say different things. A week is what they want

2:03 PM

Saturday, October 27, 2018

Scott Angelle

Good morning. I'm going to head over to mib around 11 and spent a good part of my afternoon there. Please do t hesitate to reAch out if you need anything

10:16 AM

Scott Angelle

Spend not spent. Please do not hesitate

10:17 AM

Joe Balash

Sounds good. I'm just trying to clear my desk and table. Could be a long term project

(My weekly message to my kids. I thought I would share) Good morning teammates. It's the last Sunday of October! We soon make the turn for November. With fall in the air and holidays filled with faith, family, fun , food and love. Today's gospel is about a blind beggar bartimaeus. He cried out to Jesus and when asked what he wanted he said "I want to see". Jesus replied "be on your way. Your faith has healed you". I see two lessons here. One is that Jesus teaches us our faith in him is so important. Imagine if he can heal a blind beggar what he can do with our little problems! It takes courage to communicate our issues to Jesus and faith to believe he hears us.

10:53 AM

Additionally I think we could all have the same prayer as Bartimaeus. We could all use better sight. Sight that leads to awareness And awareness that leads to action. Perhaps better sight to see the poor, the discriminated, the mentally ill, those in need of human action and love. Let us all pray for better sight so we be more prepared to serve the Lord. Have a great day and I look forward to celebrating thanksgiving with each of you. With all my love and respect, Pepere'

Just a quick heads up that Talos' Dynamically positioned HP1 Floating Production Unit experienced an emergency disconnect from its GC 234 Phoenix subsea field. All indications are that disconnect sequence performed as designed and required. No pollution other than the minimal release (per design) from void between disconnect valves. ROV is being launched to confirm close of tree and subsurface valves. At this point this is a low level incident that we will monitor. Will be investigated jointly with USCG for root cause. An OIR will be issued this am. We are trying to get inspectors to the field today to monitor. OIR will contain details on timeline . No other information will be available until staff that are monitoring report out. No need to escalate to ASLM at this time

Yes. We showed coast guard around. We had some interesting findings. A broken off vent line coming off a stock tank. Oil residue around vent lines on stock tanks. More active leaking on lact skid. More evidence of oil leaks getting into the test separators 2nd containment skid and draining to the overfilled sump. We got some different measurements of the stock tanks that leads us to believe rain water has displaced oil in the sump. Uscg seems very interested in federalizing. They said they would have some very serious discussion about it. And would even start looking at how much it would cost to drain the worst vessels and pipeline.

1:06 PM

More to come when they get back in, but there is evidence that oil is being released from vents

(My weekly message to my kids. I thought I would share with you)
Good morning teammates. I attended (b) (6) this morning. The reading from the gospel sets us up beautifully for the coming holiday season. Jesus reminds us it's not how much we give but how much love we put behind our giving. He honors the widow who put in a couple of coins while others put in much more. Because it was from her needs not her surplus. The priest talked today about living a culture of giving. A culture of putting love behind our giving. We all have a human instinct to accumulate things. Many of which we do not need. We are all guilty of that from time to time. As we approach this holiday season let us be a family that lives by example "a culture of giving." Let's go beyond giving toys and food and clothes. Let's give love !!! Have a great day. I will be traveling today and tomorrow and back in dc for the remainder of the week. I arrive late Friday night in Lafayette for 9 days of faith, family, food, football and fun! With all my love, admiration and respect Pepere'

Director Angelle, Mike Lawson of Rowan. I know you have been sending a number of requests out to operators to stimulate their participation in SafeOCS but I believe similar messaging should be sent out to drilling contractors and service companies in order to widen the data collection net during Phase II of SafeOCS. I believe there are only two drilling contractors currently participating in Phase 1 and even though there was limited space for the PoC by BTS, it saddens me that we do not have more interest in the project or membership participation in COS by the drilling contractors. This is about improving our collective knowledge and those who struggle to see this value to the industry need to hear from leadership and I believe you are the man to make this well known to them. I hope you have some time away over the 4th and thank you for the kind note and IADC meeting poster. "The small things often matter most". All the best, Mike

6:54 PM

Scott Angelle

Thanks mike. You are indeed correct. We now have 59 percent of the production enrolled. That's up from zero percent. We need more on the service side. A email is going out tomorrow to another group. I'm not stopping

(My weekly message to my kids. I thought I would share) Good morning teammates. It's the last Sunday of October! We soon make the turn for November. With fall in the air and holidays filled with faith, family, fun , food and love. Today's gospel is about a blind beggar bartimaeus. He cried out to Jesus and when asked what he wanted he said "I want to see". Jesus replied "be on your way. Your faith has healed you". I see two lessons here. One is that Jesus teaches us our faith in him is so important. Imagine if he can heal a blind beggar what he can do with our little problems! It takes courage to communicate our issues to Jesus and faith to believe he hears us.

10:54 AM

Additionally I think we could all have the same prayer as Bartimaeus. We could all use better sight. Sight that leads to awareness And awareness that leads to action. Perhaps better sight to see the poor, the discriminated, the mentally ill, those in need of human action and love. Let us all pray for better sight so we be more prepared to serve the Lord. Have a great day and I look forward to celebrating thanksgiving with each of you. With all my love and respect, Pepere'

(My weekly message to my kids. I thought I would share with you)
Good morning teammates. I attended (b) (6) this morning. The reading from the gospel sets us up beautifully for the coming holiday season. Jesus reminds us it's not how much we give but how much love we put behind our giving. He honors the widow who put in a couple of coins while others put in much more. Because it was from her needs not her surplus. The priest talked today about living a culture of giving. A culture of putting love behind our giving. We all have a human instinct to accumulate things. Many of which we do not need. We are all guilty of that from time to time. As we approach this holiday season let us be a family that lives by example "a culture of giving." Let's go beyond giving toys and food and clothes. Let's give love !!! Have a great day. I will be traveling today and tomorrow and back in dc for the remainder of the week. I arrive late Friday night in Lafayette for 9 days of faith, family, food, football and fun! With all my love, admiration and respect Pepere'

11:46 PM

Sharing my weekly message to employees. I've provided a weekly message for 50 consecutive weeks, since my first arrival on the job.

Dear bsee teammates,

This weekend is very important, and the reason has nothing to do with work.

My messages to you recently have mostly been centered around the importance of the men and women of BSEE, and their critical contributions to a safe and robust Outer Continental Shelf. Today I choose to focus on the value of motherhood in our country as we celebrate Mother's Day on Sunday.

I want to wish every mother, mother-in-spirit to a mother, or mother figure – to each of our deserving BSEE employees – a very happy Mother's Day. I am confident we are a better bureau and a better nation when we acknowledge the impact of mothers, mothers-in-spirit, and all the mother figures who have nurtured and supported us through the years.

I, for one, will take some time to recognize the priceless contributions of my own mother, as well as the mother of my children. I encourage each of you to do the same on this special weekend in America, when we honor these special people in our lives.

Thank you to all the moms, biological or otherwise. May you all have many joys and happy moments to cherish and celebrate on this Mother's Day.

Lastly, as I mentioned last week we have begun to expand our introductory video series to include staff from all BSEE offices and locations. So today,

I am pleased to share this video highlighting John McCall, a Petroleum Engineer with the Field Operations Section in the Alaska Region.

Have a wonderful weekend,

Scott

Rig working well, we're on our first well running in new tubing today. Hopefully hurricane season will be uneventful this year. Second rig due to be in 299 field 15th - 29th of month. We are all over these fields with upgrades, repairs and hopefully more oil thru the LACT unit. Lot of moving parts with all the lift boats, people and rigs working. Hope we are making a positive difference and helping everyone in South LA. We are determined, focused and 100% committed to everyone's success all around.

Hey Scott,

We're about to start our next phase of platform refurbishment in our Main Pass 299 field. It includes upgrades to 5 different structures, we will be required to shut the entire field in (+/- 5000 bbls/ day) for up to 17 days, so we are trying to prepare as much pre-project work as we can to ensure we do not keep the field offline absolutely any longer than required for the upgrade.

We sent in the Structural Modifications Application: MP 299 - D, Platform Application No. 2018-010 – Modification dated June 11, 2018 to Vanessa Bertrand of the regional structural group and we were hoping to have something today, but were told by end of next week. If you get the chance could you ask about it for us. I'm pretty sure we are there we just need a little encouragement to get it over the line. We were really needing to start by first part of next week to try to reduce the shut in time if at all possible.

8:13 PM

Thanks,

Mike

I know you are extremely busy, but did you have a chance to check on the status of the structural permit for me yet? I'm behind the eight ball 🙄.

Wish we could have got together tomorrow, but from the presentation I can see you have more pressing issues to attend to. Just let me know when you are available next and we can get together.

How are you, missed you on weekend, but I've been offshore since last week with the upgrade project. We moved 500 personnel out of the fields and back in today due to weather event and back at it now.

I have the dive boat here in the field, any word on the CPL pipeline, I want to sent risers while the vessel is in the field if I can? Dive boat mob and de-mob is costly and would really like to avoid that expense if we can.

Scott Angelle

(My weekly message to my kids. I thought I would share) Good morning teammates. It's the last Sunday of October! We soon make the turn for November. With fall in the air and holidays filled with faith, family, fun , food and love. Today's gospel is about a blind beggar bartimaeus. He cried out to Jesus and when asked what he wanted he said "I want to see". Jesus replied "be on your way. Your faith has healed you". I see two lessons here. One is that Jesus teaches us our faith in him is so important. Imagine if he can heal a blind beggar what he can do with our little problems! It takes courage to communicate our issues to Jesus and faith to believe he hears us.

10:54 AM

Additionally I think we could all have the same prayer as Bartimaeus. We could all use better sight. Sight that leads to awareness And awareness that leads to action. Perhaps better sight to see the poor, the discriminated, the mentally ill, those in need of human action and love. Let us all pray for better sight so we be more prepared to serve the Lord. Have a great day and I look forward to celebrating thanksgiving with each of you. With all my love and respect, Pepere'

Mike

Thank you for sharing this Scott. Being on my own here without my family, things like this are very special to me and I feel very blessed to have met you and know someone of your character.

My youngest daughter is coming to visit me next week for a few days as she is out on her school break. I'm so excited to see her and show her Louisiana!!

Thanks again,

Mike

Scott do you have time to speak for a short minute? Kevin Karl has indicated there has been a preliminary judgement regarding the BSEE authority to grant Cantium's pipeline right of way application #G29398

4:22 PM

Mike

I was just wondering if it sounded positive, because as we understand it the judgement has not been finalized at the district level.

Good morning. Did you get a fed ex package from me containing a Memorandum of agreement on inspector overnight lodging and meal reimbursement from the govt to you?

9:37 AM

Starlee Sykes

I did. This is fine with us.

9:51 AM

Scott Angelle

Thanks. It just brings some structure to a very sloppy government process. We should be paying for those services but we understand it's a headache for the operators to generate an invoice so I've established a process where we generate an activity report and you just review and return to us and then we have a source document we can use to process payment. The services are being provided so as I said before this just cleans up things

(My weekly message to my kids. I thought I would share with you)
Good morning teammates. I attended (b) (6) this morning. The reading from the gospel sets us up beautifully for the coming holiday season. Jesus reminds us it's not how much we give but how much love we put behind our giving. He honors the widow who put in a couple of coins while others put in much more. Because it was from her needs not her surplus. The priest talked today about living a culture of giving. A culture of putting love behind our giving. We all have a human instinct to accumulate things. Many of which we do not need. We are all guilty of that from time to time. As we approach this holiday season let us be a family that lives by example "a culture of giving." Let's go beyond giving toys and food and clothes. Let's give love !!! Have a great day. I will be traveling today and tomorrow and back in dc for the remainder of the week. I arrive late Friday night in Lafayette for 9 days of faith, family, food, football and fun! With all my love, admiration and respect Pepere'

(My weekly message to my kids. I thought I would share) Good morning teammates. It's the last Sunday of October! We soon make the turn for November. With fall in the air and holidays filled with faith, family, fun , food and love. Today's gospel is about a blind beggar bartimaeus. He cried out to Jesus and when asked what he wanted he said "I want to see". Jesus replied "be on your way. Your faith has healed you". I see two lessons here. One is that Jesus teaches us our faith in him is so important. Imagine if he can heal a blind beggar what he can do with our little problems! It takes courage to communicate our issues to Jesus and faith to believe he hears us.

10:55 AM

Additionally I think we could all have the same prayer as Bartimaeus. We could all use better sight. Sight that leads to awareness And awareness that leads to action. Perhaps better sight to see the poor, the discriminated, the mentally ill, those in need of human action and love. Let us all pray for better sight so we be more prepAred to serve the Lord. Have a great day and I look forward to celebrating thanksgiving with each of you. With all my love and respect, Pepere'

(My message to my kids this week. Thought I would share) Good evening teammates. November is here. Chill is in the air. Gumbo on the stove. Holidays around the corner. I attended (b) (6) [REDACTED] It is beautiful. The priest taught us today that the 2 greatest commandments are to love God with all our being and to love our neighbors as ourselves. He went on to say when we love our neighbors we demonstrate our love of God more than any offering or sacrifice. Let us be ever mindful of our calling to always chose Love. Love is undefeated. When in doubt chose and act on love!!! Looking forward to seeing y'all soon. With all my love, respect and admiration. Pepere'

Wow!

9:23 AM

Sharing my weekly message to employees. I've provided a weekly message for 50 consecutive weeks, since my first arrival on the job.

Dear bsee teammates,

This weekend is very important, and the reason has nothing to do with work.

My messages to you recently have mostly been centered around the importance of the men and women of BSEE, and their critical contributions to a safe and robust Outer Continental Shelf. Today I choose to focus on the value of motherhood in our country as we celebrate Mother's Day on Sunday.

I want to wish every mother, mother-in-spirit to another, or mother figure – to each of our deserving BSEE employees – a very happy Mother's Day. I am confident we are a better bureau and a better nation when we acknowledge the impact of mothers, mothers-in-spirit, and all the mother figures who have nurtured and supported us through the years.

I, for one, will take some time to recognize the priceless contributions of my own mother, as well as the mother of my children. I encourage each of you to do the same on this special weekend in America, when we honor these special people in our lives.

Thank you to all the moms, biological or otherwise. May you all have many joys and happy moments to cherish and celebrate on this Mother's Day.

Lastly, as I mentioned last week we have begun to expand our introductory video series to include staff from all BSEE offices and locations. So today,

I am pleased to share this video highlighting John McCall, a Petroleum Engineer with the Field Operations Section in the Alaska Region.

Have a wonderful weekend,

Scott

This is an example of U.S.A. fueling the world. Secretary Zinke can rightly take his share of credit for managing the resources of the country in such a way that it affords us the opportunity to improve our trade imbalance, create domestic jobs, improve our economy. We are building on the strength of our farmers to go beyond feeding the world by using the strength of our oilfield workers to fuel the world. Doi, as the manager of a large portfolio of energy assets, is helping making that happen! That's a BFD!

Scott Angelle

Good to see you. We moving forward with more reg reform at bsee. I'm always interested in knowing if the 6th floor views bsee as moving the ball down the field. Do you hear anything as feedback is limited? Thanks

4:24 PM

Vince Diveto

Will handle. Let's chat when Z gets back from travel. Thanks.

I'm working on a shallow water royalty relief program because there has been little to no activity for a long time in the shallow waters.

Check out my suggested program marketing name.

This is an edifying article. Actually, the sentence to most note is that pension funds are forced to seek high yields (i.e. high risk) to cover retiree benefits. That seems like a crisis in the offing...
